TASCA 42

Restaurant In Moraira

Tasca 42 is celebrating its tenth anniversary. From day one, we had a clear idea: that all families should be able to enjoy food without worrying about allergies or dietary restrictions.

Share safely and happily. We are committed to a 100% gluten-free menu. It wasn't an easy journey, but it was a very rewarding one: we tried hundreds of products until we found breads, pastries and dishes full of flavour that appeal to both coeliacs and non-coeliacs alike. Over the years, we have proven that gluten-free cuisine can be just as delicious, varied and surprising. That's why, every season, we continue to gain loyal customers, with and without allergies, who appreciate what we have to offer.

Fresh, seasonal produce. Our menu combines set dishes with suggestions that change according to market availability: meat and fish from the fish market, coca of the week, seasonal fruit... Always prepared to order and adapted to different needs: vegans, those with seafood, egg or nut intolerances. Safety and the absence of cross-contamination are our priority. Many of our customers come from Alicante, Valencia or Castellón, and return several times a year because of the trust and peace of mind they have in being able to eat without worries.

Our wine cellar. Another source of pride for us is our wine selection. From the outset, we have focused on Spanish wines, with a special emphasis on those from the Valencian Community, which today account for more than 50% of our wine list. We want to highlight the value of native grapes and the richness of the region. In addition, thanks to the Coravin system, we offer wines by the glass in different ranges, from €4 to €19, so that each visit is also a journey through the flavours of our land.
